If No, can the system be installed on a Group III Race Prepared Car?

Answer: Yes (10) No (4)

11/11/06 Clarifications:

Page 2-6 2.4.2.2 Speed Events

Question: When a low speed autocross is held on a police training facility track or a road track where the course is defined by cone gates, offsets, slaloms, etc. to control the speed to less than 80 MPH and not just the track, is a wrecker and ambulance needed?

Answer: To answer this question, they came up with a definition of a road track because the book requires an ambulance and wrecker at road tracks, high speed events and drag events. The definition they came up with, a road track is a permanent course designed and built for the purpose of automotive racing competition. So the answer to this question is No, you do not need an ambulance because as soon as you cone the course to lower the speed it is no longer a permanent course. Yes (0) No (14)

Page 6-2 6.2.3 Type III Chance Rallye

Question: Does the following constitute chance rallyes within the definition of the current NCCC Rulebook, section 6.2.3 and constitute valid events in terms of awarding NCCC competition points? Further it explained how these events were ran within the region, it was seven chance rallyes that basically had a start point, they went out 35 miles and back 35 miles which met the mileage requirement for seven rallyes and at the end they drew cards, threw dice, whatever.

Answer: The competition committee was, although we did not think that was a very good Rallye, half of the committee agreed that it met the qualifications, had on abstention, Mike broke the tie and said it met the requirements of the rulebook. Yes (8) No (7)
